It can be a comedy, a series

a video clip what am I going to do

name now.

There are three leading roles, there

is that of dua lipa, there is the

Chayanne and Mila Kunis. It is a musical with special participations of actors and actresses from renown.

The scene takes place in a ranch house with a large wheat field.

To begin, a carriage was seen entering with the coachman who is an actor with Dua Lipa and Mila Kunis while the camera is showing the entrance to the room is seen the workers with straw hats working in the wheat field while one of them, Chayanne, looks at each other with Dua Lipa as if starting a romance.

AND

Brad Pitt appears looking at Mila but she doesn't see him. It would be nice for Mila if her children were in the carriage as if they were her nephews.

And all this happens in a

dusk and the night is approaching

then Chayanne begins with a guitar to

sing a song" with the reason of

what

serves music" " called

the carriage sit on benches in the shade

then

While I continue making this song,

closet, then here comes the

night and fireworks go off from the room,
the workers take off their hats and they

musical and acting fields, so many

is setting and everyone begins to dance in
the room and enter the room.
night you see Mila out dancing
to Brad Pitt. And so we do the
stars do the chorus while
They dance one step and the entire
song is played until it comes to an end,
the lights turn on and they greet the
audience. The reason rather is to
make an institutional and lasting song
that talks about the most sensitive issues
of society and

How can we be united with music for that cause, both artists and the public. The adults, the children, the Latinos, the Americans, let's imagine

when they take off their hats that sunset under the sun and you see the illuminated faces of people who are celebrities and as a conclude as the song would have It has to be very long to show everyone. I propose that dialogues be done while there he begins to sing with the guitar.

I know that there are many that it

What a couple huh?

Format for television theater that
can be a weekly series that
shows types of coexistence.
I leave it to you to write the script

according to his own experience and he will always come up with some semi-painful story that he will want to tell in that totally depressive and funny format for the audience. Those dates are very bright so that the other public can have fun too.

The setting is simple, it is a play for theater is about putting a television on a sofa in front of it For two people, an armchair bed next to it decorated with some plants and a kitchen.

The story is that it is about a couple who are lovers of

television and very much into football and
he is a lost chef.

Then pass the conversations
from her sitting looking at the
television and him lying down with
depression and inviting a friend to talk
while she seems very

indifferent then he gets up
determined to cook from a bed
where he looks tired he went towards
the kitchen and she despises everything
he tries to seduce her
constantly and her comments
that are going up little by little, she tells
him, huh?
That? As? In other words, he doesn't
pay any attention to her or any attention
while all she does is

staring at the television and
responding to what it says to you in that
way and the conversations get louder,
which may be conversations that I leave
up to you to create your own script of
what could have been a bad
emotional experience. very tragic

also looking for comedy

very tragic.

The play ends with her turning off the
television, lifting up the sofa and imploring
him to stay almost as if crying from
the sofa bed, depressed, lying there.

A voice-over is heard in the theater that when the play ends says which couple eh? As if it were any neighbor, any neighbor.

She knocks on the door and asks him;

Can I bring food?

Freud's kitten

A theatrical work for television that can also be adopted for cinema.

Psychoanalyst with his cat gives sessions to girls who are sexy or not. And sexy guys or not.

Although the origin of the work
is based on what is the life of
Freud what is an adaptation in which
the
comedy and for that, depending
on the version that the director
wants to make, the time will be
estimated on scene of a
patient with his psychologist with the
particularity that there will
be a cat in the office so he always
ends up saying the usual
thing, well, the therapist's time is up
and when he leaves the patient he
tells her the cat is coming to daddy
so that is the beginning of something
comical because in the same
format it would be

It is very boring that the work is so extensive with a single patient, so what occurs to me is that many girls come in and out of the office. The best thing is that these actresses are already in therapy and that the psychologist also plays Freud too. He is in therapy to be able to do the parody better and the comedy is going to be in the gringa with dad because the cat or the cat is going to make his life impossible, just imagine a cat in therapy which could be with Iván with armchairs. So type of a reality show or an improvisation in which the patient sit on the couch or lie down on the couch and start that parody

which occurs in therapy with an audience specially called for the work that meanwhile entertains the cat and thus reaches the comedy, which is why at the end of each consultation the psychologist Freud tells the cat to come to daddy. It can also be the other way around and see a psychologist. Also, whether the patients are men or women, that is, everything can happen depending on what is proposed in the preliminary conversation about what more or less

it is going to be talked about or it is going to be done with

the advantage in that the actresses, the actors, the psychologists or the psychologist will be in therapy and will know well how to carry out the play the funniest and most peculiar thing that has ever happened to them.

So it occurs to me that there has to be a dynamic between Freud and the patient and the next patient telling anecdotes that go away.

intertwining with each other

adding to Freud a little hypocrisy to make it more comical, such as how he can't stand the suffocated patient telling the cat to come to daddy, and I came up with this idea because he told all the rubbish that the company of a cat would be better and that's where it comes from. You pulled out all this stuff that could make you really crazy

The staging is simple, your strong lights, a couch, some

armchairs, the box and the cat whatever

as daring as possible and if They want to liven it up a little more, it could be a person who dresses up as a cat, I literally tell you.

Couples therapy can also be done on the day that the psychologist or Freud calls the parents.
Another example would be: Freud invites the patient's family even when Freud invites his own parents to correct the problem and any madness that is good for them in order to capture what the feeling is that you want to convey. In my opinion there must be many entries and exits of patients with a single psychologist and be in chapters

weekly that last one hour.
Like a session itself. Then if you want to expand a little more you can make an example that would be a film that is Freud camping flying Freud with his friends Freud of Freud jargon at school or Internet teacher etc. and all this together can be done in a true film. If you want to make it more wordy and scripted, whether for television or for cinema, a film comes to do all this together, it is more or less two hours, always maintaining the comic style that is given to the actors or actresses, which psychoanalyzed the psychologist, what he told him then, bringing the light to it, becomes an enrichin

for the public and sells therapies or other matters and always in the end he is going to tell the cat come with daddy which can also be called come with daddy the play. And don't forget that what occurs in The Encounter between Patient and Patient is the entrance and exit of the office, because there has to be a blurring of Freud to move to that plane and

then again happy therapy again patient and Freud and cat and public and everything else. Yeah
well it's a spoken work no
forget the unforeseen things that happen in therapy, such as the doorbell ringing or having to go to the bathroom or hearing some noise from the house or

Whatever is disconcerting, it also has to be there and a DJ can do that.

Given all this, a good actor with A good actress can carry the entire show.

And I hope it can go with the song that I attached that talks about the self in figurative form saying shop that sounds similar. You can restart it so that it remains
more commercial.

(This is how they tell me where the
function is)

fun town

They mark the Wild West as a
contrast to what
modernism is today and tries to
be something tragic but comic.

You have to imagine a main
street with everything that would be
the town.

Ah well, it was fun, they came
all the people because their main
attraction was the casino
hilarious.

In a very fun casino, as is already known,
the house always won
then it occurred to a man
put an armory in front called the
only shot. So
When people lost everything
they went to the gun store to buy that
saving throw of all
debts and they also did

promotions in case they wanted to bring
an additional weapon for an affected
family member
for the facts that he also wanted to
commit suicide.

But what happened, not everyone
you got the shot right so next door they set
up an infirmary called the missed shot
and there the whole town went and he was
attended to very kindly by nurses and they
always used to say and another

with the missed shot.

So so that people wouldn't lose so
much money they put a church right in
front of the
infirmary that is next to the casino
where the priest gave his sermons
strongly asking the

townspeople to give alms to the poor to bring the people who gambled in the casino to church and thus the priest can do a few pesos of course to go play at the casino.

Then the influential people came up with the idea of putting a police station which collected from the citizens the taxes to achieve security and keep in order all the affairs that happened in a very fun town, so every person and every bandit who tried to steal went to the dungeon that is in front of a public square where people went to walk after having won in

the casino and that it had to be taken
care of very well by law.
And for the good residents
who didn't play and who worked hard,
a shopping center was built for them
to walk around before going to
the main square so they could buy a little.

So let's say that whoever
won had that moment of
relaxation in a very fun town in the
main square guarded by the
sheriff and those who lost took
the armory road a single
shot.

And that was how the
fun town now remains

Escort

For bowling alleys (play) it can be adapted for the theater in winter and for pubs in general.

Inside the bowling alley there will be a sector where there are individual white curtains and inside there will be women waiting for the client to come and there are more or less five or six curtains and the escorts are preferred to be actresses but they can also be professionals.

It's about making comic works

For example, that the actor trips nervously and that the scolt always tells him, "So and so, you fall?"

Then there is that game with the people and actors and actresses in the audience that, for example, you can ask them to dance or it occurs to me that there is a table where the audience can take people.

from the bowling alley with microphones and
then the escort does a
series of questions where the
person will be involved and then the
escort asks for a big round of
applause for this person who volunteered
and the atmosphere begins to be better
and the bowling alley or the pub or the theater is better.
Then you will see how
the actors take one by one
or two by two they were doing scolt
all this same journey and then
They sit at reserved tables
all with lapel microphones where the
audience will also be entertained by the
dialogues since
there will be many from different
points appealing to humor and especially
to the ridicule of stories that are generally
told of failure

of love and business without
neglecting the applause part.
In an equitable way that the actors and
actresses involved create a kind of script
between the tables, it already brought
people comically. So what the work is
mainly about is removing the shyness of
the public and among people and
that kind of nervousness, whether it
be in halls or clubs or pubs,
transforming it

in a continuous laugh where the
public becomes part of what is
the work itself. And also if
want to do it with more actors they can
do it with an alternation of the
scolt that are
on the curtain

Now if they want to do it with a
smaller budget or there are fewer actors
or it is very difficult for them
They can do two or three people
perfectly.
referring to an entry as a
of bowling or lapel microphone and an
improvised conversation or not of those
who are going to perform the play of the
bowling that usually the hour begins
with a reproach from the woman, such
as always with that so-and-so jacket?
So everything that makes people
laugh can have a purpose of applause that
must not be neglected because what
the work is about is creating an atmosphere
in the public.

The good thing is that for the escorts, instead of earning $100, the company earns much more doing the play.

Then there is the second part of the Scolt men that accompany older ladies so, as already mentioned, you can imagine what it could be.

It starts with a story that may be that I, the director of the play, then the lights go out of the person who is in the bed or on the side of the bed sleeping and the other illuminated person wakes up, then just after 3 seconds the person who was sleeping awake as if it were a new day but full of problems then a third character appears who could be a priest who could be a

there
they disguised good deals
They begin to investigate the person's

but after three turns off the light the
person begins to get worse and you can

The diagnoses remain: bipolar,
acute delirium or depression, obsessive-

and what no one knows is what they

story, then between turning the light off
and on of the person who

he is sleeping he tells her every time

is saying and begins to achieve
a balance when the person who
tells him stories leaves and then
the experts also leave and leave
some strange idea in his

him those stories. stories and
in order not to do harm
he keeps quiet about it and only
the person who helps him

Then in a moment

He gets out of bed lucidly and the person

The first thing to do when experiencing dizziness

Whose pot is it?

It is a story that can be adapted for the theater or for make a television format.

It is a work of criticism of criticism.

The main story is of a craftsman who is a blacksmith and who works for free and alone

They charge for the materials and in a time of crisis they dedicate themselves to making pots and pans.

Then he starts making a lot of pots and pans, he has to make some for the people of the neighborhood for people he still doesn't know and then
write a book about what life is like

blacksmithing and how to make silver
making pots

Then people for reasons still unknown
began to
criticize this craftsman without

realizing that the pots had been made by him.

Then when the book became

very famous the public began to say no to the saucepans

other blacksmiths had done and in this
way discredit this
craftsman.

then everyone else
They began to say that
They had made the pots.

And all the critics hail the
other blacksmiths as geniuses with pots
and pans and so it was that this craftsman
dedicated himself to
do other blacksmithing things
displaced by the same crowd that helped
him.

So one day reflecting is
Terrero began to wonder if he really should
have sold the artistic work he had done
and thought that the mistake

It was there in giving things for free to
ungrateful people.

Then he went to the kitchen and
Imagining all the other people's
kitchens, he thought, will the others
realize who makes their pots? Well
son, I'm sorry for the criticism but this
saucepan is mine.

Moral: if you make the pans
You have the right to criticize your work
but if someone else does your
thing to criticize them you have
to negotiate them otherwise
you cannot criticize them
because it would be being
ungrateful for the good will of the worker.

You need a character to do

people cooking and discussing what
the dialogues would be.

In low light or dim light.

Then people who would act as
an audience who only criticize you
saucepans.

And returning to a corner of the
stage listening to all
dialogues and suffering and writing.

Until a person approaches
him and asks him a question,
admitting that he had given
him all the free pots and pans.

Melophobia stress (Begins
with tinnitus) That is, phobia of
sounds or music or
annoying noises that cause stress
especially to musicians and
artists. This noise phobia is
main cause of other phobias and is
in all
social extracts without differentiating

no individual that is so harmful
that it can bring physical and
organic problems of a wide nature
without being able to enjoy the quality
of life.

Symptoms: Dizziness, severe
dizziness, nausea, vertigo, diarrhea in
some cases.

Sometimes we have these symptoms and
we don't know what they are or where
they come from, which is why
specialists usually think of cases of
severe delirium or acute delirium or
depression or other
diseases when in reality
we are facing a patient who

you have stress and even worse with melophobia or other phobias. So There are some modern techniques to help the recovery and social integration of people who suffer from it. And it is caused by cell phone noises, using the headphones loudly, a lot of radio or internet music or internet sounds,

a lot of disco or living in a noisy place and everything that makes us have a phobia of music even without knowing it and this affects a long treatment when it can be solved in a short time.

Recommendations: Before the symptom of vertigo or dizziness

lie down as quickly as possible and

wait for it to stop and

in cases with nausea begin

with taking medication with Serial. (Only

one blister, one pill every 8 hours)

The first thing to do when experiencing dizziness

is to drink a glass of water and sugar.

Then I rest

Then a diet (of the three stages)

to avoid gaining weight.

Then medicate yourself this way:

Olanzapine 10 MG divided into two daily doses.

Clonoten 2 MG in three doses daily

Risperidone syrup 5 MG

Or the similar for homeopathy.

herbal tea for sleep evening.

3 drops of alcohol with each meal.

Drink as much water as possible.

Be in a peaceful place.

Take a bath at bedtime

Get up and walk 20 blocks.
(As possible)

No radio, no WiFi, no television.

Listen to classical music (or nothing)

Hire a companion service for the hours you are alone.

Home consultation of a psychologist 2 times a week

Contraindications: What anti-Parkinsonians are, piportil, sexual inhibitors. (Clopixol for example) and derivatives.

Manual tasks: painting, photographing, writing, working with plasticine.

Receive a visit from your partner (if he or the patient wishes for privacy)

If the stress was caused by your partner, it is recommended to interrupt the relationship in its entirety.

A little sport. (No recreational games or cards)

Rest as much as possible.

In case of hospitalization, it is all same only that the patient can go out and have privacy.

No micro narcosis or anything electronic since it is not a pathology.

What happens is that a fish in a round ball spins around tides and dies is not like a square fish tank with oxygen for example. In other words, if you can decide to continue in open spaces, it will prevent treatment for claustrophobia.

The treatment lasts a week
at home with subsequent
precaution.

Inpatient treatment lasts
20 days.

You have to keep in mind that these people
are not crazy, they are just having a bad
time.

This is the method then you will see
the number of phobias there are (they
are in a book) to
treat them appropriately
each one but gives stress to the patient.

Phobias are epidemic for oneself if it is one time the others don't come.

Phobia treatment center.

All health professionals can join and work together in this endeavor.

Whose pot is it?

It is a story that can be adapted for the theater or for make a television format.

It is a work of criticism of criticism.

The main story is of a craftsman who is a blacksmith and who works for free and alone

They charge for the materials and in a time of crisis they dedicate themselves to making pots and pans.

Then he starts making a lot of pots and pans, he has to make some for the people of the neighborhood for people he still doesn't know and then write a book about what life is like blacksmithing and how to make silver making pots

Then people for reasons still unknown began to criticize this craftsman without realizing that the pots had been made by him.

Then when the book became very famous the public began to say no to the saucepans

other blacksmiths had done and in this
way discredit this
craftsman.

then everyone else
They began to say that
They had made the pots.

And all the critics hail the
other blacksmiths as geniuses with pots
and pans and so it was that this craftsman
dedicated himself to
do other blacksmithing things
displaced by the same crowd that helped
him.

So one day reflecting is
Terrero began to wonder if he really should
have sold the artistic work he had done
and thought that the mistake

It was there in giving things for free to
ungrateful people.

Then he went to the kitchen and
Imagining all the other people's
kitchens, he thought, will the others
realize who makes their pots? Well
son, I'm sorry for the criticism but this
saucepan is mine.

Moral: if you make the pans
You have the right to criticize your work
but if someone else does your
thing to criticize them you have
to negotiate them otherwise
you cannot criticize them
because it would be being
ungrateful for the good will of the worker.

You need a character to do
of artisan.

a kitchen with a stove and
people cooking and discussing what
the dialogues would be.

In low light or dim light.

Then people who would act as
an audience who only criticize you
saucepans.

And returning to a corner of the
stage listening to all
dialogues and suffering and writing.

Until a person approaches
him and asks him a question,
admitting that he had given
him all the free pots and pans.

While making a saucepan
craftsman when others
they started to feel hungry
Turn on a very bright light in the corner
where he is and say in all the silence,
whose honor is the saucepan?

Love words

I wish you well in all aspects
of the world.

You will be able to overcome all
obstacles to reach your
goal.

There are times when a gesture of
love counts more than a thousand words.

Secrets hold a lot
love.

Love people just love
that's all they do, aman.

When there is love everything is
understood and everything is fixed.

It is true that humanity does not agree,
but it does love.

Never forget when you started writing you
did it for love.

When loneliness calls, tell it
that love is waiting for you.

You can feel worthy of many things but
worthy of not being loved is a disgrace.

you are the only owner of your
destiny and never anything or anyone to
take it away from you through hate.

If you learn to love with your own deficiency that will mean success.

The only thing to be successful is to unfold evil into love.

Never take revenge because you will make the hatred clear, so it is better to let the bad happen and grow where peppermint grows where it grows love.

We say that do not suffer, do it Case to your master.

.

Nothing is simpler and more
complicated than loving family.

What we sometimes endure I
learned from my kitten that they can
scratch your knees and we
We have to wait to see what we are
doing that might bother him.

Nothing unjust happens through love,
anything unjust happens through hate.

The teacher teaches but sometimes he
forgets that the student is the
teacher.

A child who forgets what he learned from
his parents has no future.

Many times I had to give this
information to the world from when
They think I'm wise because they don't
understand that for that you have to
make love to him on television and
love for the radio falls in love with
all means.

I haven't written many songs
of heartbreak, most of them are of
love but they hurt.

A person who is with you could
never lie to you.
making love.

Love does exist, it is what
humanity calls the essential of
human values.

And we will make a conclusion
beneficial when we understand that
you should not eat animal meat
because they are our brothers, they
are mammals.

If one day you want to love
someone, tell them only the truth.

When you stumble on the path of
love you don't realize it but there is
many people who will call you to
teach you the right way
you will know.

I had to live with a
kitten and it may be the best thing that
ever happened to me.

In the love of people, they are
accepted as they are, but love

That case doesn't last and it has fruits
deplorable.

If we start to think about how many people he left along the way, we could then worry about all those people who wanted to give us love and couldn't.

Love doesn't begin with friendship.

If you can remember when you were not afraid that means that love that was it.

There is no beast so brave that it
cannot be conquered with
love.

They told a friend that love moves
mountains and he turned
millionaire.

the moment a person
it totally feels
Disappointed and far from the world is
when people love her the most.

Where there is love there are jokes.

Only the person who lacks self-love

creates conflicts.

They say that the bill calls the bill because

then love is called the

love.

To not fight in love you have to

leave him.

The only way to recognize

errors is that they let you know

with love.

There are many types of love, there is the love of my son, the love of a father, the love of a couple, the love of family, that is, they are all loves.

The problem is not love, the problem is the temptation that by using love you can do something bad.

Love doesn't make anyone suffer.

A person who disappoints in a love pact is despicable.

He who gives something to someone does it out of love for no other reason.

Love must be loved for it to be faithful and beneficial.

A person who hates love and tells you so will never be merciful to you.

For various reasons, a person can reject you but never stop loving you.

Once a clean-hearted love is born, never
let it pass through another heart.

How to make money

You can make January playing football and you can also make money by being a public employee you can also make money being a writer too you can use money being a musician you can also make money by being a politician and you can also make money with a trade and you can also make money by moving up in any job but what it is about here is how to make a lot of money in

less time but it is not as complicated as it seems so

Also set up your store or a self-service or a supermarket with a small loan but what you have to know is this account, that is, 100% is invested.

Then you place 300% above the cost and sell it, then there is 200% left, 100% of which is money to invest and thus progress, so having this calculation you will always have money left for you and to invest.

In our minds we can be suggested to make money in many ways and all of them are valid for many subjects and an extremely large market that sometimes exceeds the limits of what we can really do.

Because if our being wants to sell crafts in the plaza or wants to live on the beach with a caipira stand, it is also viable how to make all this simpler, but many will say no, I don't want to do that thing or do that job.

then colossal written up

moment we can start really thinking about how to make money. The idea of the product always appears because we see it on television, we see it on

internet and then we look for the product or we make it ourselves, which is more difficult because we have to work with a team, that is, if I want to work with leather and make a

leather clothing line

What I have to do is buy all the leather that is possible, have it made at a construction company and then print my logo, my brand in another place and that way the product is finished. So what we have to think about now is who are we going to sell it to and this You have to pay close attention because the name of the product is essential for the sale. For example, you may wonder why I put rental clothing on all this leather work and that's how we start with the mind.

business. Now we have stores on the internet

We have online payment services almost if you read this

easily and without leaving your home
with the cell phone in hand he will be
Running a business and with the
technology that exists now, you no longer
have to go crazy about collecting
money and it's just a pos. And when you
have to buy, call the supermarket and
make the purchase you have to
make and when you have to pay your
house bills online, then we already
have a business there, which
will take you 8 hours a day of

work and the most important thing is
to be enrolled in a retirement
fund, that is, to make the relevant
contributions because let's imagine that
one day you will no longer want to
work no matter how much money you have.

So let's imagine the number of products that we can make and that we can sell and the number of people there are to be able to work or derive our jobs to achieve financial success by helping other people and in the best way because that is what being money for is all about. not having to profit from other people and also live with dignity. It is true that to start we need capital so we can sell things that we no longer need or also take out a small loan that can be paid in a year with the ease that will be

be selling Before

start you already have to see

The competitors that you will have will have at least five. And do the numbers and calmly start thinking about the business by making links that can be in a social network of your friends. So I already have my business, I'm already selling wallets for rent, but for that we must not forget about all the service that I need, so there we realize that the product and service are very close and that practically one cannot

live without the other.

But also to make money you have to be informed about the prices, especially because before you start selling or even

take out a loan you have to see if
It is no use bringing wallets in this
case of China or make them in
In our country, we then begin to compete with quality and price because we can sell a higher price for better quality, but what matters is the brand because the brand is what calls and then it has to make advertisements, which the agencies practically take care of. All you have to do is sell. And you know how you get started after selling what you don't need and reinvest in any

thing how to make lighters
small crafts and from there the capital is formed then following the rule of not spending

All we have earned, but half, we
are making the net capital so that
when we have it entirely we can do our
great business, which was everything
explained above and do not rule out doing
it the same way.

way and with the same technique as
used through the Internet. I have
technology to collect and I also have
technology to sell and I also have
technology to pay and I also have
technology to be

informed about how my
business and it is not complicated at all to
use this technology.

So only now what remains for us is to
imagine what will happen to us.

do you like it I imagine? Well, that's what you have to sell until everything has been explained before how the business is done, so with that imagined you have to reread everything again and then you will draw another conclusion.

organized and detailed of what it is going to be convenient for you to undertake and how it is going to be to undertake what you already It is detailed. So with this great help from the technology of what is Google that we can search for the infinite number of products and services and prices since the revolution is almost done

Let's say the new industrial one and then that's what you have to take advantage of. Then, as we know, the services are there and you will be able to

pay for the money from your sold product and others will make money with the money you earned but it is the law of business, true. So after having made a significant capital you can expand your business and have it in a physical location and continue working with trained people or employees who will help us make the business easier even with ideas or with whatever you need and make a call and With the number of people who want to work, you will be a good person who will provide decent employment to others and they will be grateful and will work happily and for that there is a personnel selection company, so always try to

delegate to others what you could not do.

So now you know how to make money, of course I don't know everything, so add your knowledge and undertake everything that this world and this life does not expect. Remember to register.
